Volume IX

DEDICATION

The Senior Class of 1966 dedicates the 1966 Vallescope to one who has so generously given of her time and energy to the education of her students. Rather than "looking-on", she has worked along with us, and helped us with our problems. With gratitude in our hearts, we present the 1966 Vallescope to one whom we wish to thank for being just herself, MISS ZONA W. LANDES.

ANNUAL STAFF

We have worked hard to make the 1966 Vallescope an accurate record, a treasure chest of memories, and a yearbook that will be a credit to our school. Planning and editing the Vallescope has been one of the happiest experiences that we have had, and we hope you will enjoy it.

As we think back to five years ago when we started to Valley, many memories come to us. We remember seventy-six bewildered students wandering through the halls. We were not sure where to go or what to do. The school seemed large to us, and it took time to become adjusted. Soon, however, we were in the full swing of lessons and school activities. Our class officers were Jim Shifflett, president; Billy Hodge, vice-president; Carol Pullin, treasurer. The first exciting moment was the election of Brenda Winebriner as our football candidate. We were initiated by the seniors and entertained at a Sadie Hawkins Dance.

Our freshman class elected as class officers Tommy Campbell, president; Marsha Trimble, vice-president; Betty Dean, treasurer; and Brenda Winebriner, secretary. Dorothy Cleek and Brenda Winebriner were elected cheerleaders to represent our class. Helen Lewis was our football candidate.

As sophomores, we elected Marsha Trimble as our class president, Betty Ward, vice-president; Gregory McMullen, secretary; and Betty Dean, treasurer. Helen Lewis was elected Miss Sophomore. Eddie McElwee and Walter Williams won first prize in the Bath County Science Fair. Dorothy Cleek was our football queen

We started our junior year under the leadership of Jackie Bussard, president; Betty Ward, vice-president; Eddie McElwee, secretary; Betty Dean, treasurer; and Marsha Trimble, reporter. Eddie McElwee again won first prize in the Bath County Science Fair and Sandra Hodge won first prize in the biological division of the County Science Fair. Betty Ward was the candidate for the football queen contest. Dorothy Cleek was elected Miss Bath County and Betty Ward and Billy Allen were "Class Favorites." Marsha Trimble and Barbara Fertig represented Valley at Girls' State, and Eddie McElwee was the delegate to Boys' State. As

As seniors, we elected Jackie Bussard, president; Betty Dean, vice-president; Betty Ward, secretary; Barbara Fertig, treasurer. We elected Phyllis Brinkley to represent our class in the football queen contest. Marsha Trimble was elected by the Tri-Hi-Y to be District Chaplain.

Now, we look forward to our prom and our senior trip and--at last--graduation.

The Halls of Valley

These are the halls of Valley
That have held our growing, our laughing, our loving.
Here we have opened the door to opponents and school friends.
Our lives have been molded and torn and rebuilt, but the halls stand unchanged.
Now we shall go, never to know them as we have known them before,
But something of us will be left here . . .
And someday we shall come back.
We'll walk down these halls when both of us are older,
We'll stop, and stare and wait --
But it will not be the same.
For our laughter, our heartaches, and our love will have left with our leaving,
And no one will know how important it all was to us --
The halls, the study, the dreams, each other.

Tree farming is a GROWING business

Proof? Ten years ago, there were only 16 million acres of woodlands on the nation's accredited Tree Farms. Today, there are almost 50 million acres, a three-fold increase. Each Tree Farm is being operated as a private enterprise, growing trees for a regular cash income, just like any other crop.

One of the big reasons why tree farming is a growing business is because the market for wood is growing. Annual consumption of wood products is rising at a steady rate and continues to rise as our economy expands.

The country's tree farmers are able to supply these growing needs because they are employing scientific forestry methods in cutting, harvesting, seeding and through the protection of their timber from fire and disease. This is good news not only for tree farmers and wood-using industries, but also for the nation.
